### Introducing the All-New Low-Cost **SPACEGUARD** Automatic Parking Space Protection Barriers from A.G.K. Ltd.

The **SPACEGUARD** barrier provides the perfect way to ensure your parking space is reserved for you alone! Your parking space is a valuable asset and the **SPACEGUARD** barrier provides a simple and effective solution to the increasing problem of unauthorised use of reserved parking facilities.

The **SPACEGUARD** is operated via a remote control key fob. Pressing the button on arrival will cause the barrier to drop and on upon departure simply repeat the procedure.

The **SPACEGUARD** takes about 5 minutes to install and is fitted with a Battery that only needs to be recharged c. every 3 months for normal operation.

There is no longer a need to get out of the vehicle and insert a key to drop a post, you can do it all from the comfort and security of your car.

It is also fitted with an audible alarm which will sound should an unauthorised party try to force the **SPACEGUARD** down.
