Option 3: 'Dynaflex' Units (1000mmH)

each @ €148.00

Option 4: 'Tubular Hazard Markers' (900mmH)

each @ €225.00

REFLEX POSTS

The AGK Reflex Post is very flexible with the ability to be rolled or crushed and always restoring to its original shape, every time. The elastic reflective sheeting is not torn when bent or crushed. The fixings provide for easy installation to both concrete and tarmacadam surfaces.

Applications:

- Delineator Post
- Island Bollard
- Car Park Definition
- Footpath Definition
- Towns / Villages
- Emergency Access Areas- can be used as a Block-off system and still provide unrestricted access for emergency services.

Specification:

- Polyurethane flexible plastic, 1.48 kg weight
- 1000mm high x 80mm Ø with 200mm base
- Complete with 4 reflective strips.
- 3no. Ø 18 x L 90 x 10mm screw fixings included with plugs
- Fixable to Concrete or Tarmacadam
- Passively safe
- Certified by DIN EN ISO 9001:2008

Adaptor attachment to fit top of bollard allows for:

- Plastic sign Ø 300mm. Single sided or double sided with any message printed on.
- Solar powered flashing light with on/off switch.
- No batteries required with inbuilt solar charger and photo cell ensuring light only flashes in the dark.

E. AUTOMATIC BOLLARDS

QUESTION: Is Your Parking Bay Being Attacked By Space Invaders?

ANSWER: Protect It With the New Automatic **SPACEGUARD** Barrier

**ONLY
€199!***

*) Excl. VAT & Delivery

Introducing the All-New Low-Cost **SPACEGUARD** Automatic Parking Space Protection Barriers from A.G.K. Ltd.

The **SPACEGUARD** barrier provides the perfect way to ensure your parking space is reserved for you alone! Your parking space is a valuable asset and the **SPACEGUARD** barrier provides a simple and effective solution to the increasing problem of unauthorised use of reserved parking facilities.

The **SPACEGUARD** is operated via a remote control key fob. Pressing the button on arrival will cause the barrier to drop and on upon departure simply repeat the procedure.

The **SPACEGUARD** takes about 5 minutes to install and is fitted with a Battery that only needs to be recharged c. every 3 months for normal operation.

There is no longer a need to get out of the vehicle and insert a key to drop a post, you can do it all from the comfort and security of your car.

It is also fitted with an audible alarm which will sound should an unauthorised party try to force the **SPACEGUARD** down.
